

## Grosscup in Jamestown As Federal "Watch Dog"

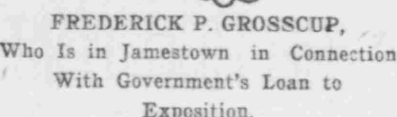

Goes in Interest of Gov-  
ernment's Loan of  
\$1,000,000.

Frederic Paul Grosscup, of Charleston, W. Va., is just now the most watchful man at the Jamestown Exposition site. This for the reason that he is the special representative of the United States Treasury Department in connection with the \$1,000,000 lent to the Ter-Centennial Company. By the terms of the law authorizing the loan, the Exposition people are to pay back each month 45 per cent of the gross receipts until the \$1,000,000 loan is repaid. Commissioner Grosscup is the watchdog of the "boxoffice receipts."

At his home in Charleston, W. Va., Commissioner Grossepup is known as an energetic lawyer and politician. He is a brother of Judge Peter J. Grossepup, of Chicago, and they were born in Ashland, Ohio. According to Commissioner Grossepup, his adopted State of West Virginia will have a notable exhibit at the Jamestown show.

# JAP QUESTION WILL NOT DOWN

## California Looks for Trouble, But Not Just Now.

"The Japanese question is an issue with us that will not down, and it will not be very long when it will be as vital to the coast as was the Chinese question before the passage of the Chinese Exclusion act," remarked T. K. Clarke, a prominent business man of San Francisco, at the Raleigh last night. "To my way of thinking," he added, "there are already too many of the Japs in this country, and when I say this country I include Hawaii. While I do not look upon the Japs as a trouble maker in Japan, our action in refusing to admit them into our public schools, and the power conferred on the President to exclude the Japs from our shores will not please the Mikado much, and, when the Japanese government has trouble with two incidents will be used as a pretext to cut off trade relations."

"Japan is reaching out for the Eastern trade, and her position makes the Philippines necessary to her. But I do not apprehend any war just yet a while. Japan is not a warlike nation. I will see to it that our navy keeps pace with the growth of the country."

## Order Promulgated to Protect Clerks From Injury.

The injuries sustained by many postal employees while handling mail, in which cards, ornamented with glass, mica, and so-called diamond dust, form a part, have resulted in the promulgation of an order prohibiting such cards from being placed in the mails unless enclosed in envelopes.

The glassy particles used in the ornamentation of the pictures on little cards have caused the eyes and the hands of the mail handlers like the knives and create sores that are hard to cure.

These cards have been received from several postoffice divisions where postoffice clerks have had their eyesight injured and some from their ears and a general outcry from the public has resulted in admission to the mails unless contained

## ASPHALT PAVING PLANT SUGGESTED FOR DISTRICT

With a view of reducing the cost to the District of sheet asphalt paving, the Commissioners have suggested to Congress that an appropriation be made for the establishment of a municipal plant for the manufacture of this class of paving. They believe, however, that, as a rule, it is best to have all work done by contract.

**SOME BAD NEWS AWAITING  
JAMES DAVIS, OF BALTIMORE**

A letter has been received at Police Headquarters from S. F. Davis, of 1902 Walbrook avenue, Baltimore, requesting that his father, James Davis, who is supposed to be in this city, be notified of the death of his mother and brother-in-law. The letter stated that Mr. Davis left Baltimore several days ago, and that a chest of tools and a dress suit case were sent to him in this city. The police have been unable to locate him.
